

FREQUENTLY ASKED QUESTIONS

DWER Dust Sampling Program

What will occur as part of this Program?

We will be placing dust sampling equipment – small glass squares – at a small number of community volunteers' homes around the area, to collect dust and help determine possible source/s.

How often will you monitor the dust sampling equipment?

We will collect dust from this sampling equipment daily to analyse and identify what it is made of and where it may have come from.

These FAQs may be updated as the Program progresses.
